

High School Project Based Learning (PBL) Weekly Update # 9

[BIE's Project Search](#) is an online tool used to search curated online libraries for projects that are meant to inspire your own ideas or may be adapted to fit the needs of your classroom.

Here is a sample project designed for an 11th grade economics class titled: [Are You Buying What I'm Vending](#)- see general description below:

Given new federal laws outlining “Smart Snacks” in schools, students need to reinvent the vending machines in order to make a profit to help support student extras, such as field trips, dances, & student events. Students will identify products that qualify under the new law, survey the student body for possible demand, analyze price points, contact vendors, and pitch the top 5 products they believe will post the most profit.

STUDENT VOICE | INNOVATE | MOBILIZE | EMPOWER | CONNECT
